*"The sound of Bianca Gismonti sparkles the hope of continuity of a lineage springing from Villa Lobos, Pixinguinha, Tom Jobim and Luiz Gonzaga, as a proof that our brazilian music is alive"*

[Yuri Popoff]

*"It's true! The 2013 solo debut from pianist and composer Bianca Gismonti, "Sonhos de Nascimento" (Dreams of Birth), is a superb album of jazz-oriented piano trio music. But as good as that album is, now comes "Primeiro Céu" (First Heaven) – and it is even better!"*

[Bruce D. Roberts]

*"It was with great joy that I listened to Bianca Gismonti's Trio CD, recorded with state of the art quality revealing a vigorous interaction and sensitivity. Bianca presents her beautiful compositions in a rich brazilian rhythmic gesture along with lyric harmonies and inspired melodies."*
